2) Assessment of the manner of fulfilment by the Company of the disclosure obligations with regard to the application of corporate governance principles specified in the Stock Exchange Rules and in the regulations concerning current and periodic information published by issuers of securities.

The Supervisory Board of KRUK S.A. gives a positive assessment of the manner of fulfilment by the Company of the disclosure obligations with regard to the application of corporate governance principles specified in the Stock Exchange Rules and in the regulations concerning current and periodic information published by issuers of securities, as well as in the Regulation of the European Parliament and of the Council on market abuse.

Following the adoption by the WSE Supervisory Board of the Best Practice for WSE Listed Companies 2016 by way of Resolution No. 26/1413/2015 of October 13th 2015, the Management Board adopted, by way of Resolution No. 1/2016, a statement of compliance with the Best Practice for WSE Listed Companies 2016 at KRUK S.A.

Following the coming into force on July 3rd 2016 of the Regulation of the European Parliament and of the Council on market abuse, the Company's Management Board adopted, by way of Resolution No. 161/2016, the Rules of Cooperation in the Fulfilment of Disclosure Obligations within the KRUK Group, which were later amended by Management Board's resolutions in 2017 and 2018; the amendments were introduced following the entry into force of Regulation (EU) 2016/679 of the European Parliament and of the Council of April 27th 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation), Regulation of the Minister of Finance of March 29th 2018 on current and periodic information to be published by issuers of securities and conditions for recognition as equivalent of information whose disclosure is required under the laws of a non-member state, as well as changes in the organisational structure which had taken place at KRUK S.A.

In 2020, the Rules of Cooperation in the Fulfilment of Disclosure Requirements within the KRUK Group were amended to reflect the organisational changes that took place at KRUK S.A. (SMART). The following documents, information and circumstances were considered in the analysis of application of corporate governance rules in 2020:

- a) full-year reports for 2019, published in 2020, containing, in the Directors' Reports, the KRUK Management Board's statement of compliance with the corporate governance standards set out in the Code of Best Practice for WSE Listed Companies 2016,
- b) actual application by KRUK S.A. of the Code of Best Practice for WSE Listed Companies.

In the opinion of the Supervisory Board, the Company complies with the recommendations and principles set out in the Code of Best Practice for WSE Listed Companies 2016 to the extent specified in the appendix to Resolution No. 1/2016 of the Management Board of KRUK S.A., which came into force on January 4th 2016, concerning the Code of Best Practice for WSE Listed Companies 2016 effective from January 1st 2016.

The analysis of the application of the provisions of the Regulation on current and periodic information to be published by issuers of securities as well as the provisions of the Regulation of the European Parliament and of the Council on market abuse covered, among other things, the following documents, information and circumstances:

- a) current reports from no. 1 to no. 54 for the period January 1st December 31st 2020,
- b) full-year reports for 2019 and interim reports for 2020, published in 2020.

In the opinion of the Supervisory Board, the Company duly complied with the provisions of the Regulation on current and periodic information to be published by issuers of securities as well as with the provisions of the Regulation of the European Parliament and of the Council on market abuse.

3) Assessment of the rationality of the Company's sponsorship policy.

In the opinion of the Supervisory Board, the Company pursues a reasonable sponsorship policy in line with the principles set forth in the Charitable Sponsorship Policy at the KRUK Group, as adopted and

implemented by the Company. As specified in the document, the KRUK Group conducts charitable and sponsorship activities by providing in-kind and financial support to non-profit organisations, but also to the Group's clients and employees in need.

Among the objectives of the Company's charitable and sponsorship activities is help for the most needy, promotion of active and healthy lifestyle, and support for local educational projects. Educational activities aimed at raising the financial awareness of individuals hold a special place in the calendar of annual community-outreach events organised by the Company.

They include the Ecological Debt Day, during which the Company seeks to draw the attention of the media and the public to the issues related to excessive consumerism and its impact on the natural environment. Another such event is the Day without Debts, organised by the Company to encourage people to monitor their finances and take steps to repay their debts. 2020 saw its 12th Polish edition, with other companies, associations and institutions joining in.

Particularly important in 2020 were initiatives aimed at protecting the health and safety of employees and clients. We conducted information and education campaigns addressed to elderly people and their families and joined the #StayatHome campaign. In this way we educated our clients on how they can safely use electronic payment methods and manage their debt repayments without leaving home. Such activities were conducted in all the countries where the KRUK Group operates.

As part of its Charitable Sponsorship Policy, in 2020 the Company again co-sponsored the Company Run in Wrocław. The event works on three levels — it integrates employees, encourages them to spend time actively, and provides support to sick children under the care of the Everest Foundation. The 2020 Company Run was an online event, with the participants competing remotely. Traditionally, the proceeds were allocated for the treatment and rehabilitation of children supported by the Everest Foundation of Wrocław as well as for the purchase of rehabilitation equipment for them.

2020 was an exceptional year in terms of sponsorship opportunities, as many of the planned charity events in which the Company had participated, such as the Concert of Hope, the proceeds from which were to be used to support the 'To the Rescue of Kids with Cancer' Foundation, were cancelled due to the coronavirus pandemic. Nevertheless, in the first months of the pandemic KRUK S.A. engaged in a local campaign #graMYdlaKOSZAROWEJ by making a donation to purchase protective equipment for the medical staff of the J. Gromkowski Provincial Specialist Hospital in Wrocław. In this way, the Company supported medical personnel in the struggle against the coronavirus pandemic.

In addition, as part of its support for local communities, the KRUK Group became involved in helping a children's home in Świebodzin and, seeking to improve the comfort of life of the children, it donated 40 single, nearly new beds previously intended for disposal, and purchased 40 new mattresses.

During the coronavirus pandemic, many schools switched to remote learning. However, some children could not learn, because they did not have a computer/laptop or internet connection. To support children at the risk of digital exclusion, the Company, at the request of several schools, donated laptops, tablets and phones previously used by its employees. The devices were tested and given a second life, thus enabling a group of children at the risk of digital exclusion to learn online.

The overriding objective of both of these charitable projects was to help children. At the same time, in accordance with the 3R (reduce, reuse, recycle) principle, equipment in good working condition could at a small cost be in use again. Thus, the Company supported local communities and showed care for the natural environment in accordance with the zero waste philosophy.

In 2020, the KRUK Group allocated approximately PLN 217 thousand from its budget to the sponsorship activities. In the opinion of the Supervisory Board, these actions correspond with the

Company's values and fully reflect the KRUK Group's commitment to helping those in need and building its position as an employer.
